Installation Instructions Luggage Rack Extension R1200GS

Contents:

- 1 x Rear rack extension
- 4 x Spacer (top)
- 4 x Spacer (bottom)
- 4 x Countersunk screw M6x45
- 4 x Washer M6
- 4 x Nylock nut M6

Installation:

Set the four spacers with the step into the holes on the rear rack as shown on photo 1.

Set the rack extension on the spacers and put the screws through from the top as shown on photo 2.

Put the other spacers below the rack on the screws, washers M6 and tighten with the nylock nuts M6 as shown on photo 3.

Make sure all spacers are correctly positioned and recheck the tightness before your ride and periodically
